# DERDRIU MCATEER

## Junior Web Developer

I am a junior web developer who is eager to contribute my skills, creativity, and passion for coding to a dynamic team, while continuously expanding my knowledge and expertise in web development.

## Projects

### Coffee Simulator - Terminal Application

Python

Created a Python script to simulate a coffee machine, demonstrating strong Python skills in object-oriented programming, data structures, and user interaction. This project showcases my ability to design and implement complex systems for practical applications.

### Portfolio Website

HTML & CSS

Designed a fully responsive portfolio website which features a responsive and visually appealing layout, effectively presenting my work, skills, and achievements. This project highlights my ability to create user-friendly web interfaces while demonstrating a solid understanding of HTML and CSS for web design and development.

### Pixel Art Maker

JavaScript, HTML & CSS

Developed a Pixel Art Maker using JavaScript, highlighting my proficiency in front-end web development. The project demonstrates my ability to create interactive and visually engaging web applications, with features such as pixel drawing, color selection, and user-friendly design.

## Experience

### Inventory Manager

Chemist Warehouse Ireland June 2020 - June 2023

Bringing my prior knowledge of management I was able to contribute significantly to the establishment and success of the initial Chemist Warehouse stores in Ireland. I was responsible for managing the import and export of goods from Ireland, worldwide. I also implemented efficient ordering schedules, invoice procedures and dispensary protocols across the business.

### Pharmacist Manager

Chemist Warehouse Australia January 2019 - June 2020

I managed a large team of pharmacists, interns and pharmacy assistants. I was responsible for ensuring the store's compliance to pharmacy laws and regulations. I constantly demonstrated my ability to meet KPI's by exceeding targets.
